

CYRUS ALCALA

AI Technical Writer | Documentation Engineer | Knowledge Systems Specialist

Manila, Philippines | cyrusalcala@live.com | +63 969 482 0607 | cyrusalcala.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Google AI Professional Certificate holder and AI-augmented technical writer with 10+ years across technical support, regulated operations, knowledge management, and documentation. Authored 200+ technical guides and knowledge-base articles associated with a 25% reduction in agent query resolution time and a 30% improvement in new-hire training comprehension. Hands-on builder of a production AI documentation platform integrating six AI providers, retrieval-augmented generation (RAG), streaming technical diagrams, and Cloudflare edge infrastructure. Skilled at turning complex systems, policies, and SME knowledge into clear, accurate, searchable content.

CORE EXPERTISE

Technical Documentation: Technical writing, knowledge bases, SOPs, user manuals, API documentation, information architecture, content editing, content audits, content governance

AI & Documentation Engineering: Generative AI, prompt patterns, responsible AI, AI-assisted research and data analysis, LLM integration, RAG systems, Gemini, Google AI Studio, Cloudflare Workers/Pages/Workers AI, TypeScript, Svelte, Astro, Supabase/pgvector, Git/GitHub

Operations & Collaboration: Claims analysis, data integrity, audit/compliance, workflow optimization, process improvement, troubleshooting, SME interviewing, stakeholder communication, training and mentoring

Platforms: Confluence, Jira, Zendesk, Salesforce, Notion, Google Workspace, Microsoft Office, live chat and telephony systems

FEATURED PROJECT

Technical Writer Bot | *Solo-built & deployed* | *Open source (MIT)*
tw-bot.pages.dev | github.com/cyalcala/techwriter-bot

- Designed and shipped a production-grade AI writing assistant for technical writers with conversational AI, live web search with source citations, document RAG, and real-time diagram generation across 12 artifact types.
- Engineered a multi-provider routing layer with circuit-breaker failover across Groq, Cerebras, Gemini, NVIDIA, OpenRouter, and Cloudflare Workers AI to maintain service continuity during provider outages.
- Implemented document-centric retrieval using Workers AI bge-small-en-v1.5 embeddings, IndexedDB for offline use, Cloudflare KV for cross-session persistence, and optional Supabase pgvector for larger-scale retrieval.
- Built a streaming artifact parser for Mermaid, Graphviz, D2, PlantUML, Vega, KaTeX, React components, and more, plus auto-fix on render failure through Kroki server-side rendering.
- Deployed on Cloudflare edge infrastructure with fast/balanced/heavy query routing, a 2,048-token hard budget, auto-summarization, and a six-tier user reputation system.

PROFESSIONAL EXPERIENCE

Claims Manager - Natural Hazards

WNS Global Services

Sep 2025 - Present

Manila, Philippines

- Adjudicate complex claims records by interpreting policy guidelines and regulatory requirements, making evidence-based decisions that affect risk exposure and client outcomes.
- Conduct cross-source verification to strengthen data integrity across risk assessment and claims-processing workflows.
- Author and maintain procedural documentation that reduces process ambiguity and supports faster onboarding for new claims analysts.
- Translate complex regulatory and claims information for diverse stakeholders, supporting compliance and cross-functional alignment.

PROFESSIONAL EXPERIENCE - CONTINUED

Senior Process Executive - Financial Services

Mar 2024 - Apr 2025

Infosys BPM

Manila, Philippines

- Maintained 5,000+ financial-service records at 100% SLA compliance and helped reduce audit discrepancies by 15% through disciplined data governance and verification.
- Contributed to process documentation and internal knowledge sharing, supporting team proficiency across complex financial operations.
- Identified workflow inefficiencies and co-designed corrective procedures with operations leads to improve processing turnaround.

Knowledge Technical Writer

Sep 2021 - Mar 2023

Insight Direct

Manila, Philippines

- Authored and maintained 200+ technical guides and knowledge-base articles, contributing to a measured 25% reduction in average agent query resolution time.
- Standardized documentation frameworks and content templates, improving new-hire training comprehension by 30% and accelerating time-to-productivity.
- Partnered with engineering, operations, and product SMEs to convert complex technical knowledge into clear, audience-appropriate content.
- Performed content audits and gap analyses to keep the knowledge base accurate, searchable, and aligned with product changes.

Customer Service & Technical Support Specialist

2011 - Dec 2023

IntouchCX, SYKES & other BPO companies

Manila, Philippines

- Delivered frontline support across telecom, insurance, and financial services in high-volume environments, consistently achieving strong customer-satisfaction outcomes.
- Diagnosed and resolved complex multi-channel technical issues, building deep expertise in explaining technical problems to non-technical audiences.
- Used Zendesk, Salesforce, CRM, and telephony systems to manage interactions and maintain audit-ready service records.
- Mentored peers informally on escalation handling and documentation standards, contributing to improved first-contact resolution performance.

SELECTED CAREER IMPACT

- 200+ technical guides and knowledge-base articles authored and maintained
- 25% reduction in average agent query resolution time associated with improved documentation
- 30% improvement in new-hire training comprehension through standardized content frameworks
- 15% reduction in audit discrepancies while maintaining 5,000+ financial records at 100% SLA compliance
- 6 AI providers integrated with circuit-breaker failover in a self-built production AI platform

EDUCATION & CERTIFICATIONS

Bachelor of Business Administration - Finance | New Era University, Manila, Philippines | 2006 - 2010

EF SET C2 Proficiency Certificate | Score: 75/100 | CEFR C2 (highest proficiency level)

Google AI Professional Certificate | Google Career Certificates / Coursera | 2026 | Credential: [2VVHEY7DVHBG](#)

Applied AI skills: prompt patterns, responsible AI, AI-assisted research, writing and communication, data analysis, content creation, planning, app building/deployment, Gemini, and Google AI Studio
